EXPERIENCE

- **EventCasters – Event Management Company** (June - August 2025)
 - *Full-Stack Web Developer Intern*
 - **About:** Contributed as a full-stack developer by designing and delivering dynamic web solutions. Developed two full-stack projects – theeventcasters.com and houseoflagan.com – from scratch. Implemented secure authentication and authorization while integrating cloud storage. Built custom admin dashboards to streamline and manage website data efficiently.
 - **Tech stacks used:** MERN stack – React.js and Tailwind CSS (frontend), Node.js (Express.js) (backend), MongoDB (database), MongoDB Atlas (cloud storage), and Cloudinary (image storage).
- **Uncertain – Mentorship Community**
 - *Freelancer*
 - **Project Overview:** Created a mentorship platform (uncertain.in) with a focus on responsive design. Used React.js and Tailwind CSS to build a modern front-end interface. Implemented a contact form and deployed the platform for seamless communication and accessibility across devices.
 - **Tech stacks used:** React.js, Tailwind CSS

PROJECTS

- **QuickChat - Real-time messaging app:**

Built **QuickChat**, a real-time messaging web app using the MERN stack. Developed a responsive frontend with React.js, Tailwind CSS, and Zustand. Created a backend with Node.js, Express.js, MongoDB, and Socket.io to support real-time individual and group chats. Implemented secure authentication and integrated Cloudinary for image messaging and storage.
Tech: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Zustand, Socket.io, Cloudinary, MongoDB Atlas.
- **FoodRush - Food delivery web app:**

Developed **FoodRush**, a full-stack food delivery web app using React.js, Tailwind CSS, Express.js, and MongoDB. Built features for browsing food items, adding products to cart, placing orders, and viewing order history. Created an admin dashboard for owners to manage food items and users efficiently. Integrated Cloudinary for image storage and enabled real-time database operations for a smooth user experience.
Tech: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Zustand, Cloudinary, MongoDB Atlas
